SUBJECT INDEX

Abdominal tube removal, postoperative, sensations experienced during, 78
Acquired immunodeficiency syndrome, unsafe sexual behavior in, 91
Adolescents
  Cardiovascular Health Education Program impact on, 86
  diabetes mellitus in, intensive therapy with coping skills training for, 3
  health promotion behaviors of, 179
AIDS, unsafe sexual behavior in, 91
Alcohol use, in HIV infection, sexual behavior practices and, 91
Ambulation, initiation of, after coronary artery bypass graft surgery, 168
American Diabetes Association criteria, in women at risk for coronary artery disease, 175
Analgesia, in chest tube removal, 196
Angina management, clinical trial of, patient perspectives in, 107
Antidepressants, in depression, in elderly nursing home residents, 185
Anxiety
  in family of critically ill adult, 121
  in transfer from pediatric intensive care unit, 114
Apnea monitoring, in infants, maternal fatigue in, 69
Applied Nursing Research transitions, 1

Behavior, videotaping of, 206
Behavioral intervention, in diabetes mellitus, with intensive therapy, 3
Bilirubin levels, breastfeeding effects on, 22
Bipolar disorder, group therapy for, patient satisfaction with, 143
Board certification, of hospital physicians, myocardial infarction mortality rate and, 210
Body mass index, postpartum, nutrition and exercise effects on, 13
Braden Scale, for pressure ulcer risk, 60
Breastfeeding, support for, research utilization project for, 22
Breathing, monitoring of, in infants, maternal fatigue in, 69
Bypass surgery, coronary artery
  in elderly women, family caregiving after, 128
  intensive care unit length of stay in, 168

Cardiac rehabilitation, after coronary artery bypass graft surgery, intensive care unit length of stay and, 168
Cardiovascular Health Education Program, impact on adolescents, 86
Caregivers
  fatigue in, during infant apnea monitoring, 69
  preparedness of, after bypass surgery, 128
  resident mealtime interaction with, 38
Case volume, in hospitals, myocardial infarction mortality rate and, 210
Chemical restraints, in long-term care, 159
Chest tube removal
  pain control in, 196
  sensations experienced during, 78
Client Satisfaction Questionnaire, in bipolar disorder group therapy evaluation, 143
Clinical trials, angina management, patient perspectives in, 107
Condom use, in HIV-infected men, 91
Confusion
  acute, assessment of, 51
Coping
  with diabetes mellitus intensive therapy, training for, 3
  with transfer from pediatric intensive care unit, 114
Coronary artery disease
  angina management in, clinical trial of, patient perspectives in, 107
  bypass surgery in
    family caregiving after, 128
    intensive care unit length of stay in, 168
  electrocardiography in, head-of-the-bed positioning effects on, 163
  risk for, diabetes mellitus screening and, 175
Costs, of coronary artery bypass graft surgery, intensive care unit length of stay and, 168
Critical illness
  family hope and anxiety in, 121
  in pediatric patients, transfer from intensive care unit, parent preparation for, 114
Critical pathways, for coronary artery bypass graft surgery, 168
Cushions, in pressure ulcer prevention, 136

Data display techniques, 153
Depression, in nursing home residents, interventions for, 185
Diabetes mellitus
  intensive therapy for, coping skills training with, 3
  screening for, in women with coronary heart disease risk, 175
Diet
  attitudes toward, in adolescents, 179
  in postpartum obesity, 13
Display techniques, for data, 153
Documentation, in research, 164
Drain removal, postoperative, sensations experienced during, 78
Drug use, in HIV infection, sexual behavior practices and, 91

Economic issues
  in coronary artery bypass graft surgery, intensive care unit length of stay and, 168
  in hospital operation, myocardial infarction mortality rate and, 210
Editorials
  Applied Nursing Research transitions, 1
  joys of publishing, 59
  nursing profile recognition, 113
  research-based practice changes, 167
Education, on cardiovascular health, impact on adolescents, 86
Elderly persons
  bypass surgery in, family caregiving after, 128
  caregiver-resident mealtime interaction in, 38
  in nursing homes, depression in, interventions for, 185
  pressure ulcer risk in, Braden Scale for, 60
  restraint use in
    chemical, 159
Electrocardiography, head-of-the-bed positioning effects on, 163

Ethical issues, in research publishing, 101
Ethnic factors, in pressure ulcer risk, 60
Exercise
  attitudes toward, in adolescents, 179
  in postpartum obesity, 13
  pressure ulcer risk and, 60

Family
  of bypass patient, preparedness for caregiving, 128
  of critically ill adult, hope and anxiety in, 121
  of pediatric intensive care patient, preparation for transfer to general floor, 114
Fatigue, maternal, in infant apnea monitoring, 69
Feeding, in nursing homes, caregiver-resident interaction during, 38
Financial status, of hospital, myocardial infarction mortality rate and, 210
Focus groups, for rural women of lower socioeconomic status, 45
Friction, assessment of, in pressure ulcer risk prediction, 60

Gate-control theory of pain, chest tube removal and, 196
Geriatric Depression Scale, in nursing home resident evaluation, 187
Glucose levels, in diabetes mellitus screening criteria, coronary artery disease risk and, 175
Graphical data display, 153
Group therapy, for bipolar disorder, patient satisfaction with, 143

Health promotion, attitudes toward, in adolescents, 179
Healthy People 2000 goals, adolescents' attitudes toward, 179
HIV infection, unsafe sexual behavior in, 91
Hope, in family of critically ill adult, 121
Hospice care, spiritual care in, 30
Human immunodeficiency virus infection, unsafe sexual behavior in, 91
Hyperbilirubinemia, breastfeeding and, 22

Infants
  apnea monitoring in, maternal fatigue in, 69
  breastfeeding of, support for, 22
Insulin therapy, intensive, with coping skills training, 3
Intensive care
  length of stay in, after coronary artery bypass graft surgery, 168
  pediatric, transfer to general floor, parent preparation for, 114
Interactional model, of bipolar disorder group therapy, 143
Intubation, discontinuation of, postoperative, sensations experienced during, 78

Jackson-Pratt tube removal, sensations experienced during, 78

Length of stay, in intensive care unit, after coronary artery bypass graft surgery, 168
Long-term care, chemical restraint use in, 159

Mealtime, in nursing homes, caregiver-resident interaction during, 38
Mental illness, group therapy for, patient satisfaction with, 143
Mini-Mental State Examination, in depression assessment, in elderly nursing home residents, 185
Minimum Data Set, in depression assessment, in elderly nursing home residents, 185
Mobility, pressure ulcer risk and, 60
Monitoring, apnea, in infants, maternal fatigue in, 69
Mortality, in myocardial infarction, hospital structural and financial characteristics and, 210
Multidimensional Assessment of Fatigue, 69
Mutuality Scale, in caregiver assessment, for postbypass care, 128
Myocardial infarction, mortality in, hospital structural and financial characteristics and, 210

NEECHAM Confusion Scale, 51
Numerical data display, 153
Nursing
  hours per patient day, myocardial infarction mortality rate and, 210
  practice of, research utilization studies changing, 22
  profile of, in institutions, 113
Nursing homes
  caregiver-resident mealtime interaction in, 38
  elderly residents in, depression in, interventions for, 185
Nutrition
  attitudes toward, in adolescents, 179
  in nursing homes, caregiver-resident mealtime interaction and, 38
  in postpartum obesity, 13
  pressure ulcer risk and, 60

Obesity, postpartum, interventions for, 13
Oncology, spiritual care in, 30
Outcomes
  of bipolar disorder group therapy, 143
  of bypass surgery
    in elderly women, family preparedness and, 128
    intensive care unit length of stay and, 168
Overweight women, postpartum, interventions for, 13

Pain
  in chest tube removal, control with relaxation technique, 196
  during postoperative tube removal, 78
Parents, of pediatric intensive care patient, preparation for transfer to general floor, 114
Pediatric patients
  apnea monitoring in, maternal fatigue in, 69
  diabetes mellitus in, intensive therapy with coping skills training for, 3
  transfer from intensive care unit to general floor, 114
Perceptions of Restraint Use Questionnaire, 159
Physical activity
  attitudes toward, in adolescents, 179
  in postpartum obesity, 13
  pressure ulcer risk and, 60
Physicians, board-certified, myocardial infarction mortality rate and, 210
Positioning, electrocardiographic effects of, 163
Postoperative management, tube removal
  pain control in, 196
  sensations experienced during, 78
Postpartum obesity, interventions for, 13
Posture, sitting, pressure ulcer prevention and, 136
Prayer, predictors for, in oncology and hospice care, 30
Pregnancy, weight gain in, interventions for, 13
Preparedness for Caregiving Scale, for postbypass care, 128

Pressure sensation, during postoperative tube removal, 78
Pressure ulcers
  prevention of, sitting posture and, 136
  risk for, Braden Scale for, 60
Preterm infants, apnea monitoring in, maternal fatigue in, 69
Psychoactive drugs, for restraint, in long-term care, 159
Psychotherapy, for depression, in elderly nursing home residents, 185
Pulling sensation, during postoperative tube removal, 78

Quick relaxation technique, for pain control, in chest tube removal, 196

Racial factors
  in coronary artery disease, diabetes mellitus screening and, 175
  in pressure ulcer risk, 60
Rehabilitation, cardiac, after coronary artery bypass graft surgery, intensive care unit length of stay and, 168
Relaxation technique, for pain control, in chest tube removal, 196
Reliability, of behavioral observations, videotaping and, 209
Reports, research, evaluation of, 215
Research
  adolescents' view on health promotion, 179
  angina management patient perspectives, 107
  anxiety in family of critically ill adults, 121
  authorship criteria for, 101
  bipolar disorder group therapy models, 143
  breastfeeding support, 22
  bypass surgery in elderly women, caregiver preparation after, 128
  cardiovascular health education program for adolescents, 86
  caregiver-resident mealtime interaction, 38
  chemical restraint in long-term care, 159
  confusion assessment, 51
  coronary artery bypass graft length of stay, 168
  data display, 153
  depression in elderly nursing home residents, 185
  diabetes mellitus
    intensive therapy with coping skills training, 3
    screening in women with coronary heart disease risk, 175
  documentation in, 164
  ethical issues in, 101
  focus group methodology in, for rural women of lower socioeconomic status, 45
  maternal fatigue in infant apnea monitoring, 69
  myocardial infarction mortality, 210
  pain control in chest tube removal, 196
  parental anxiety in pediatric intensive care, 114
  positioning for electrocardiography, 163
  postpartum obesity management, 13
  pressure ulcer prevention, 136
  pressure ulcer risk, 60
  report evaluation in, 215
  results of, dissemination of, 101
  sensations during postoperative tube removal, 78
  sexual behavior in HIV-positive men, 91
  spiritual care in oncology and hospice, 30
  videotaped behavioral observations, 206
Restraints, chemical, in long-term care, 159
Role taking, in mealtime caregiver-resident interaction, 38
Roy adaptation model, in coronary artery bypass graft surgery outcome, 168
Rural population
  adolescents, Cardiovascular Health Education Program impact on, 86
  lower socioeconomic status women, focus group methodology for, 45

Salamon-Conte Life Satisfaction in the Elderly Scale, in depression assessment, in nursing home residents, 185
School, Cardiovascular Health Education Program in, 86
Self-management model, of bipolar disorder group therapy, 143
Sensation
  perception of, pressure ulcer risk and, 60
  during postoperative tube removal, 78, 196
Sexual behavior, unsafe, in HIV-positive men, 91
Shear, assessment of, in pressure ulcer risk prediction, 60
Sitting posture, pressure ulcer prevention and, 136
Skin, assessment of, in pressure ulcer risk prediction, 60
Social values, in mealtime caregiver-resident interaction, 38
Socioeconomic status, of rural women, focus group methodology for, 45
Spiritual care, predictors for, in oncology and hospice care, 30
Stress
  maternal, in infant apnea monitoring, 69
  in pediatric intensive care, 114
Subject reactivity, in behavioral studies, 206

Tabular data display, 153
Teaching status, of hospitals, myocardial infarction mortality rate and, 210
Technology availability, myocardial infarction mortality rate and, 210
Textual data display, 153
Tube removal
  pain control in, 196
  sensations experienced during, 78

Ulcers, pressure
  prevention of, sitting posture and, 136
  risk for, Braden Scale for, 60
Urban environment
  adolescents in, Cardiovascular Health Education Program impact on, 86
  density in hospital area, myocardial infarction mortality rate and, 210

Validity, of behavioral observations, videotaping and, 206
Videotaping, of behavior, 206
Volunteers, for depression intervention, in elderly nursing home residents, 185

Weight gain, postpartum interventions for, 13
Women
  breastfeeding by, support for, 22
  elderly, bypass surgery in, family caregiving after, 128
  fatigue in, during infant apnea monitoring, 69
  low-income, focus group methodology for, 45
  postpartum obesity in, interventions for, 13
  at risk for coronary artery disease, diabetes mellitus screening in, 175
